## INTRODUCTION

---

The Central Library function as the primary information resource center and repository of ample Print and e-resources for learning, teaching and research activities. Apart from textbooks and recommended reading materials prescribed for each course offered at the university, the library houses a growing collection of research monographs, reports, multi-volume reference works, dictionaries, encyclopedias, handbooks, and so on. Other resources include videos, audios, CDs, Question papers, theses, standards, reports and rare books. In addition, the library also facilitates access to a number of journals through direct subscription and participation in consortia. The Library provides, in addition to the professional reading, a good amount of leisure reading and books for soft skills development. All subjects related to the University's academic and research programs have been included in the collection. Being fully computerized with RFID technology, it provides seamless access to many user-oriented services and e-resources round the clock.

The Central Library building is centrally located, well laid out, and aesthetically designed to make it an inviting place with the ambiance that is suitable for learning and scholarship. It has one central library, and 1 institutional library. The Central Library has a sprawling space of about 22465 sq. ft., and institutional library of about 10473 sq. ft., providing the right ambiance for reading and reflection. Library buildings have provision for both private and group studies, creating room for interaction, discussion and quiet studies. Enough space is provided for browsing and relaxed reading. Libraries also have carrels as well as research scholars/faculty rooms for quiet and serious studies. Libraries on all campuses are equipped with adequate number of guides for finding out resources easily by the users and the library has open access to its collection for all student, faculty and staff. All buildings are equipped with fire detection alarms and systems. The UPES Library was automated in 2006 using LibSys ILMs, in May 2014, Libsys it was migrated to more robust widely used open source ILMs "KOHA". Each library has adequate number of workstations to facilitate searching/accessing OPAC, e-resources, web browsing and for other academic works. UPES has installed the excellent ICT infrastructure with adequate bandwidth for fast and seamless access to the Internet. In 2017, the library have implemented RFID system for faster services, greater customer satisfaction and security system. The library is also equipped with Self-service RFID KIOSK where students can issue/return/reissue books.

The broad objectives of the library are:

- To build a state-of-the-art knowledge resource center for engineering, science & technology, management, law and allied subjects;
- To acquire need-based resources to meet the information requirements of the academic community of the university; and,
- To acquire, organize, and update the library collection to support the teaching - learning process.
- To provide proactive and innovative reference services to the user community.
- To encourage students to read beyond the requirements of the curriculum.

- To work with staff in incorporating information skills, knowledge of information sources, and the role of technology in accessing information needed to strengthen their teaching, research and reference.
- To provide instruction and assistance in the effective use of learning resources / services.
- To provide research assistance to the Researcher for carrying out their research
- To implement modern tools for accessing information
- To disseminate technical knowledge
- To network with leading libraries, consortia etc.

Due to the growing needs and preference of members, focuses more on subscription to online resources than printed documents. In the last few years, e-resources of the library increased considerably in terms of number and subject coverage.

In addition to circulation and acquisition services, the library provides reference service, document scanning as well as photocopying services to members. Documents, which are not available in the library, are sourced from DELNET through an inter-library loan arrangement.

### VISION OF THE LIBRARY

*“To be a center of excellence of the University’s research and learning community with enriched collections, knowledge curation, innovative services, and state-of-art technologies.”*

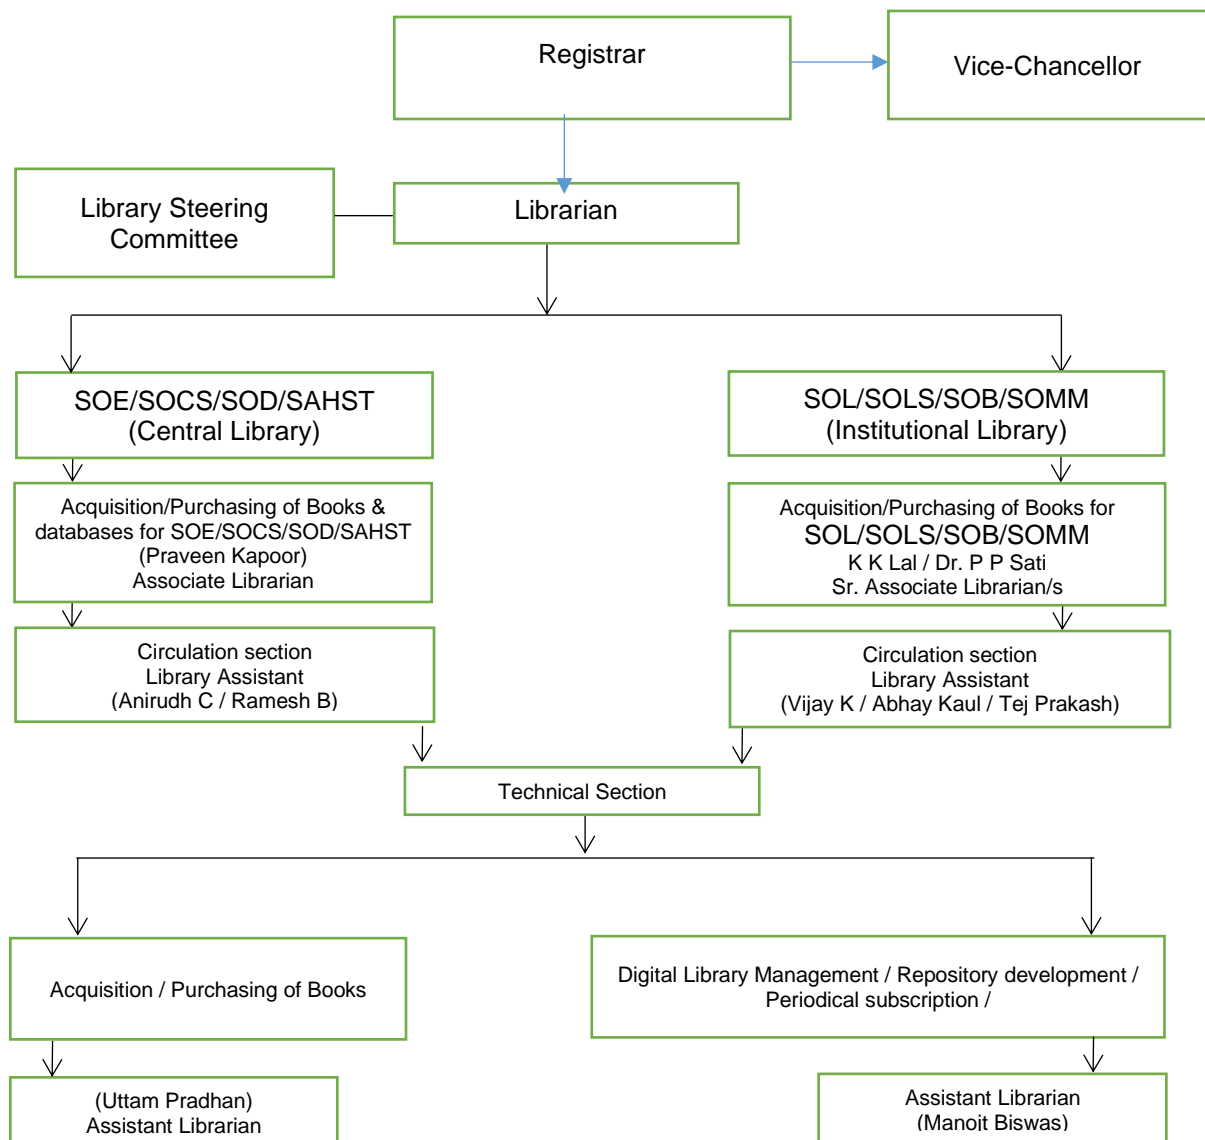

### MISSION

- To facilitate creation of new knowledge through acquisition, creation, organization and dissemination of knowledge resources and value added services.
- To facilitate convenient and user friendly access to physical and online access to information in hybrid format.
- To encourage students to read beyond the requirements of the curriculum.

## FUNCTIONAL CHART

## LIBRARY STEERING COMMITTEE (LSC)

The Library Committee is responsible for the performance of its duties and the exercise of its powers. The function of the Library Committee is to support the functioning of the library so that it can facilitate the library development plans by advocating the library development activities with the management. The Library Committee acts as a channel of communication and dialogue between the library and its users.

Since the Library has to cater to the needs of a variety of clientele namely, faculty, research scholars, post graduate and under graduate students, University administrators as well as specialists and non-teaching University staff, a wide range of subject fields are to be represented in our book stock with prime thrust for meeting the needs of students and faculty members. Besides this, for smooth functioning of the library and safeguarding the interest of whole departments of the library users, formation of policies, rules & regulations and putting

through the library policies in a wise way. The purpose of the Library Steering Committee is to act as a channel of communication and dialogue between the Library and its stakeholders. The Committee's main objective is to aid in the establishment, a bridge between the Library and the academic fraternity along with the University management. To meet the all the above objectives the Library is advised by a Library Steering Committee with the following constitution and representatives. The Library Steering Committee (LSC) is appointed by the Vice Chancellor of the University.

### **Role of Library Steering Committee**

- To guide the Librarian in formulating general library policies and regulations which govern the functions of the library.
- To suggest the Library on policy matters concerning services, resources and facilities
- To prepare a budget and proposals for the development of the Library.
- To review budget proposals for materials and equipment needed to further the library's educational endeavors.
- To provide for proper documentation services and updating the Library collection.
- To work towards modernization and improvement of Library and documentation Services.
- Committee plays an important role in increasing the online databases, e-books, print journals, magazines, books and other resources to provide the better services to the library users.
- To review the utilization of library resources
- To adopt measures to enhance readership
- To review present library services and proposing new services.
- To seek feedback on Library functions from readers.
- Creating awareness among the library users regarding use of library sources & services through a series of Library Orientation Sessions
- To facilitate communication between the Library and the community it serves.
- To consider and put forward the views of faculty members regarding book/journal selection, ordering process etc.
- To consider and put forward the views of students and Research Scholars regarding their problems and solutions sought thereof.

### **Tenure and Frequency of Meetings**

- Members will serve a two-year term for continuity and sufficient time to create an impact
- The Committee shall satisfy at least four times in an academic year with 50% of its membership consisting a quorum.

## LIBRARY BUDGET AND FINANCES

---

Library budget means the financial allocation to secure documents and offer access to the data resources. The fiscal year of the University starts from January to December in each year.

1. Books (Print & ebooks)
2. Journals/periodicals, e-databases (Renewal and new subscriptions)
3. Online archival and bibliographical Series including e-books (Renewal and new resources)
4. General consumables / non consumables
5. Travelling allowances (workshop/seminars/conference/training programs/ refresher course etc. for library staff members)
6. Computer equipments
7. RFID equipments
8. Furniture and general equipments
9. Binding and other maintenance expenses
10. Miscellaneous expenses (Book exhibition, Workshop/seminar etc.)

### Type of Library Budget

The present annual library budget of the library has the following elements:

1. Operating Budget (OPEX)
2. Capital Budget (CAPEX)

## COLLECTION DEVELOPMENT

---

All academic and research libraries have a common objective to provide its users the information they want. The effectiveness of this function is directly related to collection development and organization information services. Collection development being the most important of these primary functions, a written acquisition policy outlining the various procedures and methods necessary for collection development is prepared.

### Type of document available in Library

- Books
- Printed Journals /Periodicals
- CD/DVD
- E-Books
- E-databases
- E-Journals / E-proceedings/E-standards
- Thesis
- Dissertations
- Annual Reports
- Questions Papers

### Shift towards e-resources

Because of the conveniences like multiuser access and anywhere, anytime access, there is a considerable demand for online databases, e-journals and e-books. UPES also has excellent access infrastructure like high internet bandwidth (1.7 GBPS), Wi-Fi connectivity to the campus. E-resources can also be accessed out of campus hence, emphasis may be given more towards e-resources.

### Procurement of Learning Resources

Procurement of learning resource constitutes the primary responsibility of the library. The library creates a systematic effort in building up the collection development by identifying, assessing, selecting, processing and making it available to the users. Whether it's a book, journal or online database, or any learning resources that gets added goes through a rigorous selection process. The library follows a centralized purchasing process in the central library. After procurement, all the documents are technically processed and send to respective branch libraries.

### Procurement of e-Resources

Electronic Resources include electronic journals, online databases, bibliographic databases, indexing/abstracting services, eBooks, or any information resource that is available in electronic form. The library prefers to subscribe DRM free e-books depending upon the requirement of the curriculum and research needs.

### University Material like Dissertation/Thesis/Reports

These items are treated like books for processing, etc. and e-copies of all Theses and A grade dissertation has been archived in Digital repository.

### Subscriptions of Journals:

The library has 116 printed journals and 21000+ e-journals for the researchers to cope with the current changing scenario and all the e-journal are accessible thru E-Library platform / IP authentication.

## CIRCULATION RULES AND SERVICES

### Library Membership and Lending Services

Students, faculty and staff of UPES automatically become eligible for library members. However, a formal registration step is required, by producing your photo identification cards issued by the University, at the Library Service Desk, and completing a registration form. Your SAP ID number or employee code is your library membership number also. Faculty and Research Scholars may ask for a User ID and password which enable you to login to Library system and offer additional privileges.

Borrowing books and other material are subject to the Library Rules. Books can be checked out using the self-check-out kiosks placed in the library. You will need your smart identity card duly registered in the Library for checking out books. You can also check your account at the Kiosk. The system will generate a check out slip once the transaction is successful. The check- out slip is required to be deposited with the security staff while leaving the Library. Books can be returned by using the electronic kiosk within the Library. If required, Service Desk can be approached for returning books and other help. The library system also sends email notifications for check-in and checkout transactions and reminders for books due. Therefore, it is important to provide a valid email ID at the time of registration. Overdue books attract a fine, and such books should be returned to the staff at the Service Desk.

## Activities

Circulation Section handles the Front Desk operations of the library and is very important because it is the first contact point for faculty and students. Efficiently functioning Circulation Desk leaves a lasting impression on the user and hence it is very important section of the library. Major Activities of the Section are:

- Registration of new members and updation of all data related to library users

### Single Window search facility

A discovery service is an online tool that enables libraries to search seamlessly across a wide range of content. Discovery services provide our users a Google like single window search platform for discovering our subscribed content. Customers are able to select their licensed content to integrate it into their catalogue. The discovery service providers are given complete metadata and full text of our journals and eBooks, including contemporary and archival content. This allows the vendors to index our content fully to make it more visible and discoverable. Springer Nature works closely with vendors to create clear targets, and to ensure the completeness and discoverability of our content. In 2017, we have implemented Single Window Search facility through EBSCO Discovery Service (EDS).

**IR@UPES**

**IR@UPES is Live**

Welcome to our digital repository of My University research!

The Yamunotri: A reservoir of UPES Knowledge (IR@UPES), is an Institutional Repository for collecting, indexing, preserving and disseminating electronic access to intellectual output by the University of Petroleum & Energy Studies (UPES) community. The IR contains Theses, Dissertations, published journal articles (Pre-print and Post-Prints), Conference articles and Proceedings published by UPES community, Data sets, and reports . This will work as an important platform to facilitate scholarly communication and preserve the institution knowledge. One can browse the document by author, title, subject, and date as well as both simple and advanced search facilities..

## Shodhganga: a reservoir of Indian Theses

"Shodhganga" is the name coined to denote digital repository of Indian Electronic Theses and Dissertations set-up by the INFLIBNET Centre. An MOU has been signed between INFLIBNET Centre and University of Petroleum & Energy Studies" in November 2017. On the basis of the MOU, UPES has access to Shodhganga ETD and also takes active roles in submitting the awarded Thesis in Shodhganga database. All PHD reports awarded up to 2019, are uploaded in Shodhganga reservoir.

## STRATEGIES USED BY THE LIBRARY TO COLLECT FEEDBACK FROM ITS USERS. HOW IS THE FEEDBACK ANALYSED AND USED FOR THE IMPROVEMENT OF THE LIBRARY SERVICES?

---

Suggestion Boxes are kept prominently in all the libraries. The feedback forms are collected on a daily basis and proper replies and actions are taken and students are informed about the actions taken through e-mails.

Online feedback forms are available as part of the library portal including Survey form. The library staff responds to the queries raised as and when they are received. Suggestions/feedback from the users through e-mails are addressed and communicated to the users on the action taken.

Exclusive telephone help line is provided by the library team members. Feedback is also obtained from the library committee. The library LMS KOHA has in-built features to help users interact with the Library staff about suggestions and recommendations. Users are encouraged to make use of them. Ultimately the Library Committee, in consultation with the concerned authorities takes policy decisions after considering the feedback and oversees their implementation.

## EFFORTS MADE TOWARDS THE INFRASTRUCTURAL DEVELOPMENT OF THE LIBRARY IN THE LAST FIVE YEARS

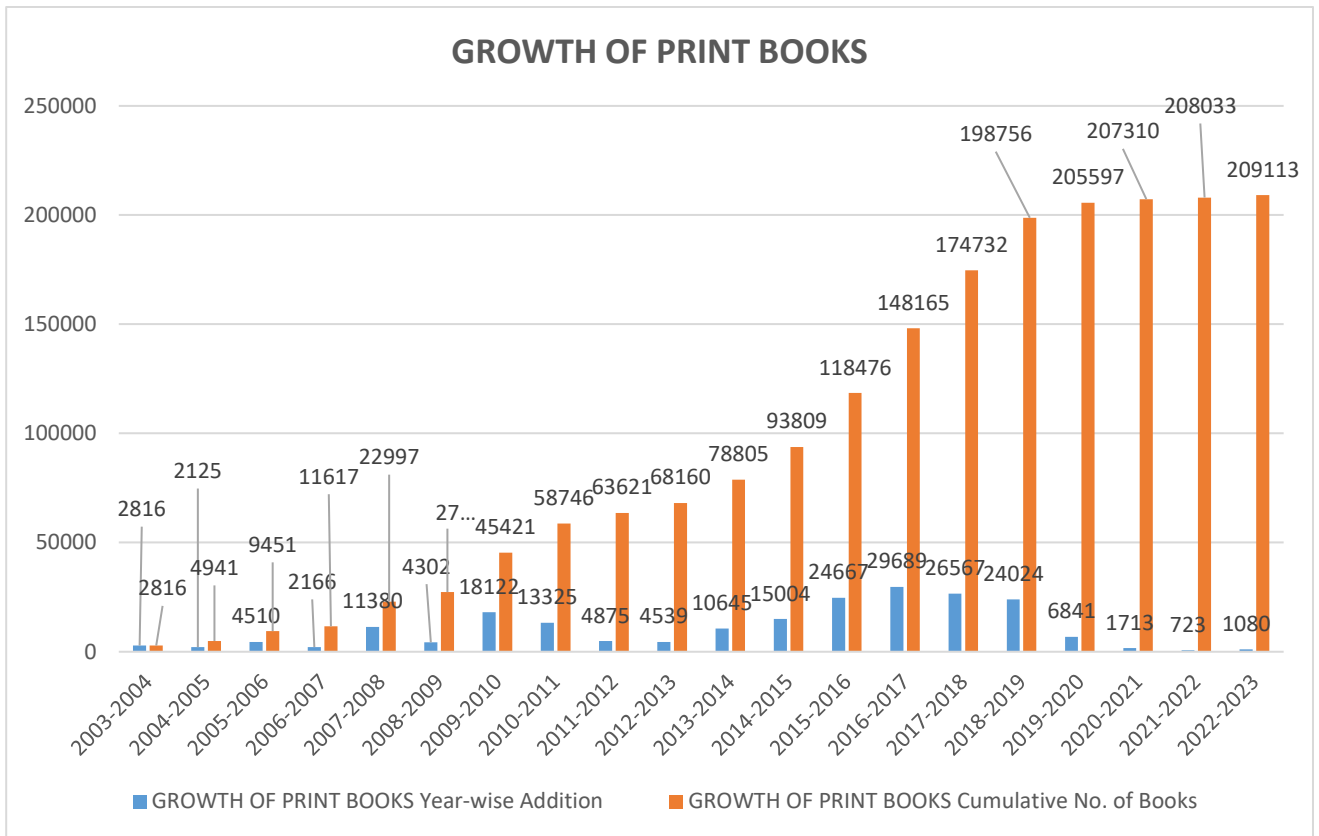

---

- Air-conditioned Reading Room has been provided;
- CCTV cameras are installed
- Entry exit software installed to keep a record of the visitors.
- Implemented Koha - Open Source Software as a Library Management System.
- Added 25 new computers and implemented new interactive library portal

# UPES organizes 'Annual Book Exhibition'

Dehradun, Sep 19 (HTNS): The Annual Book Exhibition by UPES, an eagerly awaited event by thousands of book lovers was held in the Bidholi and Kandoli Campus of UPES.

The University organizes the book exhibition every year for the students, researchers and faculty, who spend both the days selecting books, reading and also recommending books to be included in the library for references.

Dr. Sunil Rai, Vice Chancellor, UPES and Dr. Ram Sharma, Pro-Vice Chancellor inaugurated the exhibition in the presence of Manish Madaan,

Registrar, Dr. Thipendra P Singh, Chairman Library Steering Committee & Deans of different Schools and other senior faculty members of the University.

Manish Madaan, Registrar said, "The objective of the book exhibition is to inculcate among students a habit of reading, familiarize students and faculty with various subjects, help researchers with their projects and it also enriches the library collections."

Dr. Sunil Rai, Vice Chancellor expressed happiness that the event was gaining popularity year after year, stating, "Such exhibitions are beneficial

for the students, faculty and also for improving the library collection of the University".

Rajeev Attri, Librarian at UPES was overjoyed with the success of the exhibition, which was

evident from the massive footfall at the venue. Sharing his thoughts, Rajeev Attri said, "The fair has not only turned out to be a hub for the book sellers, authors and publishers but also a book lovers'

paradise with a large collection of reading material. The book exhibition presents an opportunity to the students, faculty members and even the research scholars at UPES to familiarize themselves

with the new publications in their respective areas of interest.

Approx 40 exhibitors, reputed distributors and National & International Publishers like Cambridge University Press, Taylor

& Francis, Bloomsbury, Sage, Pearson, PHI Learning, etc., participated in the exhibition." A wide range of subjects covering Engineering, Computer Science, Health Sciences, Pharmacy, Design, Hu-

manities, Management, Law etc. were displayed at the exhibition.

The exhibition was organized by Rajeev Kumar Attri, Praveen Kapoor and other members of the UPES library team.

## 'Annual Book Exhibition' concludes at UPES

**By OUR STAFF REPORTER**  
**DEHRADUN, 1 Feb:** The Annual Book Exhibition awaited eagerly by thousands of book lovers was held in the Bidholi Campus of UPES on 30 and 31 January. The University organises the book exhibition every year for students, researchers and faculty, who throng the exhibition arena in the campus for two days to select books that have been put on exhibit not only for themselves, but also to recommend books to be included in the library for reference.

Dr Deependra Jha, Vice Chancellor, UPES, inaugurated the exhibition in the presence of Dr S J

Chopra, Chancellor, UPES, Arun Dhand, and other senior faculty of the University. Dr Jha expressed happiness that the event was gaining popularity year after year, stating, "Such exhibitions are beneficial for the students, faculty and also for improving the library collection of the University." Briefing media, Arun Dhand, Director - Media Affairs, shared that the event is among the most awaited as

it inculcated reading habits among students and enriched the library collection. Dr Ranjan Sinha Thakur, Chief Librarian at UPES, was overjoyed with the success of the exhibition, which was evident from the massive footfall at the venue. Sharing his thoughts, Dr Thakur said, "The fair has not only turned out to be a hub for book sellers, authors and publishers but also a book lovers' paradise with a large collection of reading material. Such exhibitions present an opportunity to the students, faculty member and even the research scholar at UPES to familiarise themselves with the new publications in their respective areas of interest. This is the first time that an exhibition of such magnitude has been organised by the

university with twenty-nine reputed distributors and publishers like Atlantic; Taylor & Francis; Bloomsbury; Viva Books; Sage; Oxford University Press; Harvard University Press; Cambridge University Press; Pearson; World Scientific Publishing; Taxman; Wiley, etc., participating." A wide range of products covering Engineering, Management, Law and other topics were displayed at the exhibition. The exhibition was organized successfully by the UPES Library under the mentorship of Dr Thakur and his team, which included Dr PP Sati, Associate Librarian; KK Lal, Associate Librarian, and Praveen Kapoor, Deputy Librarian.

## UPES becomes first to install RFID system in its Library

**DEHRADUN, JULY 19 (HTNS)**  
The Chief Guest Sharad Mehra, CEO, Laureate India, inaugurated a high end Radio Frequency Identification System (RFID) in the Central Library of UPES at Bidholi in the presence of senior officials of UPES which included Utpal Ghosh, President, Dr SJ Chopra, Chancellor, Abhay Sharma, Registrar, Sanjiv Zutshi, Senior Director,

Arun Dhand, Director, Media Affairs, Deepa Verma, Director, Institutional Affairs, Brig SS Dhillon, Director Administration, Dr RS Thakur, Chief Librarian and the entire staff of the library. UPES becomes the first Library to install the RFID system.

Sharing details of the RFID system, Dhand shared that each and every book and journal in the li-

brary is now equipped with the chip, self-service kiosk has been installed near the library gate for getting the books issued and also for returning the books. Electronic security gate will ensure that no book is taken outside without being electronically issued and registered in the system. A software of all the Library floors has also been made by which the system would be able to inform the user the

exact location of the book at the click of the button.

A RFID handle mobile reader has also been incorporated in the highly automated system by which an erroneously placed book can also be detected in no time, by just scanning the mobile reader past the bookshelves.

It will start keeping the moment it is able to read the chip on the book.

Speaking on this occa-

sion, RS Thakur informed that UPES has two other libraries apart from the Central Library, which is primarily a Library for the College of Engineering Studies. The other two are located in the Kandoli campus, one being for the College of Management and Economic Studies and the other for College of Legal Studies. The inventory across all the three libraries includes 1,46,000 books, 153 Jour-

nals, 1230 E-Books and 17,900 E-Data Bases and E-Journals, said Thakur. Mehra was taken around the entire Library by the Library staff and shown all aspects of the library with live demonstration. He was highly appreciative about the efforts undertaken by the University and congratulated the entire team of UPES management and staff for their foresight and prudence.
